ABSTRACT

When migrant children are enrolled in the Migrant Education Program, they are also enrolled in the Migrant Student Record Transfer System (MSRTS), a national system which accumulates educational and health information for each child on a computer located in Little Rock, Arkansas. The system affords teachers the opportunity to review the records, determine the student's needs, and plan activities accordingly. Medical records are examined for any problem which may require immediate attention. If a family moves, the school updates all pertinent information on the child's record. When the child enrolls in another school, the new school receives the updated academic and health records. Intended to give parents a better understanding of the school records provided through the MSRTS, this booklet, written in Spanish and English, provides a brief overview of the MSRTS and each section of the educational and medical records. Recommendations on what parents can do are provided for each of the sections: educational records--student data, educational skills data, secondary credit data, and supportive data; and medical records--student data, recent health providers, problem list, patient and family history, screening data and labs, and immunization data. The booklet concludes with general information on accident insurance and parents' rights to review student records. (NQA)

INTRODUCCION

El énfasis de este folleto es de darle a usted, el padre, un mejor entendimiento acerca de los archivos escolares de sus niños, proveidos por el programa migrante del estado--el Sistema de Transferencia de Archivos para Estudiantes Migrantes.

Este sistema hace todo lo posible para que el niño tenga la oportunidad de estudiar sin interrupciones escolares ya que los padres se mudan tanto en busca de sus trabajos. También en documentar las inmunizaciones y enfermedades de los niños, el sistema provee informaciones críticas a las escuelas para mejor servir los niños.

Ustedes deben familiarizarse con estos documentos y asegurar que toda información esté al corriente.

SISTEMA DE TRANSFERENCIA: Descripción General

Cuando su niño se matricula en el programa de educación migrante él o ella es también inscrito en el MSRTS (Sistema de Transferencia de Archivos para Estudiantes Migrantes). Este es un sistema nacional que acumula información educacional y de salud de su niño en una máquina computadora. Una oficina central en su estado envía esta información a la máquina computadora en Little Rock, Arkansas donde es mantenida al corriente.

El sistema provee que las maestras puedan mirar a los archivos y determinar las necesidades del estudiante y planear actividades de acuerdo con ellas. También se examinan los archivos médicos por cualquier problema que necesite atención inmediatamente.

Si su familia se muda, la escuela anota todos datos pertinentes a su niño y lo envía a la oficina central para proceso en la máquina computadora.

Al inscribirse de nuevo en otra escuela, y el programa de educación migrante, la nueva escuela recibe de nuevo archivos académicos y médicos pero en este instante mas al corriente todavía.

El sistema de transferencia provee que su niño tenga un programa de escuela continuo aunque usted se mude varias veces durante el año.

Usted, como padre, puede estar seguro que los archivos de la escuela de su hijo son privados. Solamente usted, su niño o un oficial autorizado de la escuela tiene el derecho de examinar los archivos.

HABILIDADES

Esta sección documenta las actividades en los areas de: matemáticas, lectura en inglés y español, desarrollo verbal en inglés y español, y el desarrollo temprano de niños.

Las habilidades indicadas son aquellas en que el niño estaba estudiando cuando tuvo que salirse de la escuela.

En el area de matemáticas también se encuentra las habilidades que el niño ha dominado.

En el area del desarrollo temprano de niños, se encuentran habilidades que han sido observadas por la maestra. Por ejemplo, puede haber observado que el niño se puede sentar solo pero con ayuda o que el niño puede caminar aguantandose de algo, y esto es lo que documenta.

El objetivo de esta sección es de proveer información a la siguiente escuela, para empezar el estudio del niño en un area conocido a el. Normalmente, se transmiten tres habilidades por area.

Recomendación:

Revise usted las fechas -- que sean corriente. Si son fechas viejas -- pregunte ¿por qué?

MERITOS SECUNDARIOS

Toda información en esta sección se refiere a estudiantes quienes atienden la escuela secundaria.

Se encuentran cuatro partes en esta sección: 1) los requisitos minimos para graduar de la escuela en que atiende o requisitos minimos para graduar proveidos por el estado, 2) los cursos que al corriente esta estudiando, 3) todos los cursos que ha estudiado hasta la fecha (en la escuela secundaria), y el nombre, la dirección, y teléfono de donde estudio esos cursos, y 4) un formulario para reportar mas informaciones secundarias.

Estudiantes bajo del noveno grado no tendrán esta sección en su archivo. En cuanto empiecen el noveno grado la máquina computadora proveerá estos areas automaticamente.

Cuando informaciones necesarias no se encuentran en la sección de "Meritos Secundarios", se espera que trabajadores en las escuelas usen los numeros telefónicos o direcciones proveidas para obtener la información.

Recomendación:

Si su hijo atiende la escuela secundaria usted debe saber que hay ciertos requisitos para que el niño se pueda graduar. Es buena idea comunicarse con el consejero de la escuela para investigar si su hijo esta estudiando todos los cursos necesarios para graduarse.

DATOS ESTUDIANTILES

Esta sección contiene los siguientes datos: sexo, fecha de nacimiento, si es gemelo, su edad, lugar de nacimiento (hospital con la dirección), nombres de los padres o encargados, la dirección de donde piensan regresar (muchas veces es de donde empezaron a mudarse) y la escuela corriente.

Recomendación:

Muchas veces los niños viajan con encargados, no con sus padres y al inscribirse en el sistema los encargados se nombran padres. Fíjese bien que no le haya pasado. Si es cierto, dígale a la maestra o consejero de la escuela.

DATOS DE INMUNIZACIONES

Esta sección contiene las inmunizaciones que el estudiante ha recibido.

Recomendación:

Se debe prestar mucha atención a todos archivos médicos, pero esta sección es de gran importancia. Las escuelas no admiten a los niños sin prueba de inmunizaciones. Por esta razón, los padres deben guardar los documentos de inmunización para comprobar que ya se le han administrado al niño.

Al mismo tiempo, es muy buena idea de compartir estos documentos con el consejero de escuela, maestra, o enfermera de escuela para que lo apunten en los archivos del sistema de transferencia. Haciendo esto pueden asegurar que si se les pierden los documentos, ya están en la máquina computadora por seguro. Entonces el niño no tiene que sufrir mas inmunizaciones.

INFORMACION GENERAL

DERECHOS DE PADRES EN EXAMINAR ARCHIVOS

El derecho de examinar archivos de estudiantes se le provee a cada padre en los Estados Unidos. El Congreso inició Los Derechos Educativos de Familia y la Ley de Privanza en 1974 (conocido también como el "Buckly Amendment".

Las escuelas deben permitir que ustedes examinen y revisen todos los archivos de sus niños. Esto no debe ser limitado a la cubierta cumulativa o al archivo oficial de la escuela.

Usted tiene también el derecho de que les expliquen las informaciones contenidas en los archivos. Si desea una copia para usted, a veces por un costo mínimo se los pueden hacer.

En los archivos del Sistema de Transferencia de Archivos de Estudiantes Migrantes, usted tiene el derecho de cambiar errores o añadirles ciertas informaciones con la ayuda de la persona encargada de transmitir esta información a la oficina central para procesimiento. En muchos casos es la maestra o el consejero de escuela.

Por cortesía a las maestras y las escuelas, es mejor tratar de hacer una cita conveniente para los dos. Haciendo esto les dará mas tiempo al personal escolar que preparen todos archivos y si es necesario, un intérprete.

SEGURO DE ACCIDENTES

Algunos estados proveen seguro de accidentes para estudiantes migrantes. Usted debe investigar si en su estado se les ofrece este seguro.

El seguro le cubre diferentes gastos dependiendo en la gravedad de cada caso.

Después que el seguro pague lo apropiado a los doctores y hospitales, la familia tiene la responsabilidad de pagar lo que sobre en las cuentas.

Deben de recordar que el seguro paga por gastos médicos relacionados con accidentes -- no con enfermedades!!

CONCLUSION

Si el sistema de transferencia ha de tener buen éxito, es esencial que inscriban a sus niños en el programa de educación migrante donde quiera que usted se mude para trabajar.

En caso de que usted necesite ayuda en inscribir sus niños en el programa de educación migrante póngase en contacto con el director estatal de educación migrante (cada estado tiene uno) y él le ayudará.

Necesitamos hacer un esfuerzo juntos, padres y trabajadores del programa de educación migrante, para que el Sistema de Transferencia de Archivos para Estudiantes Migrantes cumpla con sus objetivos de hacer continuo la educación de niños migrantes.

INTRODUCTION

The purpose of this booklet is to give you, the parent, a better understanding of the school records provided by the Migrant Education program in your state -- the Migrant Student Record Transfer System.

This system does everything possible to ensure that each child has the opportunity to receive an education with some continuity despite the constant moving with parents who do so to seek employment.

Also, with the documentation of immunizations and illnesses, the system provides critical information to schools which help in better serving your children.

You should familiarize yourselves with these records and make certain that all information is current.

MIGRANT STUDENT RECORD TRANSFER SYSTEM: An Overview

When your child is enrolled in the Migrant Education program he/she is also enrolled in the Migrant Student Record Transfer System (MSRTS). This is a national system which accumulates educational and health information for your child on a computer. A central office in your state sends this information to the computer in Little Rock, Arkansas where it is processed and stored.

The system affords teachers the opportunity to review the records, determine the student's needs, and plan activities accordingly. Also, medical records are examined for any problem which may require immediate attention.

If your family moves, the school updates all pertinent information on your child's record and sends it to the central office for processing in the computer.

When the child enrolls again in another school, and in the Migrant Education program, the new school receives the updated academic and health records. The record transfer system helps provide a continuity in education for your child regardless of how many times a family moves.

You, as a parent, can be certain that all school records are kept confidential. Only you, your child or an authorized school official has the right to examine student records.

EDUCATION SKILLS DATA

This area documents activities in the areas of: Math, English and Spanish Reading, English and Spanish Oral Language, and Early Childhood Skills.

The skills listed are those in which the student was working on at the time of withdrawal from school. However, in the area of math, skills which have been mastered are also recorded along with the date of mastery.

In the area of Early Childhood Skills, students are observed by the teacher. For example, the teacher can observe that the child can sit alone with help or that he can walk holding onto something, and this is what is updated on the record.

The objective of this section is to provide continuity for the migrant child by assisting in the initial placement. Normally, a maximum of three skills from the most recent reporting school will be printed.

Recommendation:

Review dates and make sure they are current. If they are unusually old dates find out why.

SECONDARY CREDIT DATA

All information reflected in this area refers to secondary students (beginning with grade nine).

Four sections are found in this area: 1) the minimum graduation requirements of the high school from which the student intends to graduate or, if not available, the state minimum graduation requirements, 2) the student's most recent course work, 3) all the student's course work accrued to date, & the name, address and telephone number of the school where the course work was done, 4) the secondary credit reporting form.

Students prior to ninth grade level will not have this area on their records. As soon as they start ninth grade the computer will print this area automatically.

When information is needed that is not found in the Secondary Credit Data section, it is hoped that personnel will use the addresses and telephone numbers that are printed in this section to obtain the needed information for themselves.

Recommendation:

If your child is attending any grade from 9 through 12 you should be aware that there are certain credit requirements needed for graduation. It is wise to check with the school counselor to make sure your child has or will have all necessary requirements in order to graduate.

STUDENT DATA

This section displays the following data: sex, student date of birth, whether the child is of a multiple birth, age, place of birth (hospital and address), names of parents or guardians, home base address (usually where you call home and will go back to when done working), and the current school.

Recommendation:

Many times children travel with guardians and when enrolled into the system these adults are picked up accidentally as parents. Check to see this has not happened, and if it has, report this to the teacher or counselor. Also, if a hospital is not listed and you can provide this information, please do so.

IMMUNIZATION DATA

This section lists the immunizations received by the student.

Recommendation:

All medical records are important, but this section needs special attention. Most schools will not accept students without proof of immunizations. For this reason, parents should take care to save all immunization records.

At the same time, it is vital that you share these records immediately with migrant school personnel for documentation in the Migrant Student Record Transfer System. Doing this insures that in case the records get lost, they will be on the data base and can be retrieved upon request. It saves the child from b ng immunized all over again.

GENERAL INFORMATION

PARENTS RIGHTS TO REVIEW STUDENT RECORDS

The rights of parents to review their student's records was initiated by Congress under the Family Educational Rights and Privacy Act of 1974 better known as the "Buckly Amendment".

Schools must allow parents to inspect and review all records the school maintains on their children. This must not be limited to the cumulative folder or the official record in the school office.

You have the right to an explanation of the contents of the records. If you desire a copy, you can sometimes acquire one for a minimal cost.

On the Migrant Student Record Transfer System records you have the right to make corrections or add information with the help of Chapter I Migrant staff.

Remember that as a courtesy to school personnel, it is always best to make an appointment in advance which will be convenient for both of you. Doing this will allow school personnel time to prepare records and if necessary, provide an interpreter.

ACCIDENT INSURANCE

Some states provide Chapter I Migrant Accident Insurance for their students. You should check to see if your state is one of these.

Basically, the insurance covers different expenses on a 24-hour and 7-day a week basis. Loss of life and dismemberment are also included in the policy.

After the insurance pays what is usual and customary to doctors, hospitals, etc. payment of the balance of incurred bills remains the responsibility of the parents.

Remember, it would be an accidental insurance -- not health!!

CONCLUSION

If the Migrant Student Record Transfer System is to be successful, it is essential that you enroll your children in migrant education programs wherever you move.

In case you need help in enrolling your children in a migrant education program contact the office of the state Migrant Education Director (every state has one) for assistance.

We need to make an effort, parents and Chapter I Migrant Education workers, so that the Migrant Student Record Transfer System can accomplish their objectives in making the continuity of education of migrant children a reality.
